# WASHING INSTRUCTIONS

Conductive carbon fibers used in ESD fabrics are very sensitive to high temperatures, alkalis, acids, rinses (softeners) and bleaches. Inadequate use may cause damage to carbon fibers and ESD clothing may lose or significantly deteriorate ESD parameters. Therefore, wash ESD clothing very carefully, in each case please follow the instructions:

-  In order to preserve the long life of ESD clothings, please use industrial laundries who can provide controlled, documented washing procedures and environment!
-  Washing in cold or not warmer than 40 °C (104 °F) lukewarm water with neutral liquid detergent!
-  Do not use detergent containing bleach and fabric softener ingredient containing chlorine!
-  Bleachers are forbidden! Use of alkalis, acids or fabric softeners is prohibited!
-  Do not dry clean!
-  Drying in the open air and / or at a temperature up to 50 °C (120 °F) or less!
-  The ESD clothing does not require ironing but if absolutely necessary in that case the maximum temperature is 110 °C (230 °F) or lower!

# WARRANTY

- 
-  The warranty is strictly valid under controlled and documented industrial laundry conditions, concern the fabric washing cycle as specified in the technical data's.
  -  The warranty is NOT valid if the washing process is made in a home environment!
  -  The warranty covers ESD parameters and possible sewing errors according to IEC/TS 61340-4-9:2016 and ANSI/ESD STM2.1:2018 standard issued only!
  -  The warranty is not cover the size and shrinkage differences within the tolerances given on the size cart!
