

Foam Tip Swab

2303

Precisely designed, manufactured and packaged to serve a wide variety of cleaning and maintenance needs. TechSwabs are manufactured in accordance with Techspray's rigid specifications, using specialized materials to ensure low particle generation. Cotton swabs are the most economical choice for high volume usage. Foam swabs are ideal for more precision cleaning where linting needs to be avoided.

Small 1/4" wide rigid foam head

All foam swabs are manufactured with 100 pores per inch reticulated polyurethane foam, which ensures excellent absorbency while minimizing contamination. Tips are affixed by heat seal to prevent tip loss, even while saturated with solvent. Flexible tips provide versatility and softer touch, while rigid heads allow for more aggressive cleaning. 2303 swab has a rigid head for aggressive scrubbing.

- Reticulated polyurethane foam
- Head thermally bonded
- High absorbency
- Low particulate count
- Rigid head for firm touch

Product Packaging

2303-50
Foam Tip Swab
50 ct
12 units/case

2303-1000
Foam Tip Swab
1000 ct
