# Electric Desk TED

with quick, silent and wide height adjustment

**Describing Treston's new electric desk is like describing the features of a Big Cat. Treston Electric Desk TED adjusts to different heights quickly and silently, extending from as low as 630 mm all the way up to 1270 mm.**

This Nordic Big Cat has been tested to withstand high loads of up to 200 kg and be stable at all heights.

- ✓ Wide height adjustment range 630–1270 mm (range 64 cm)
- ✓ Quick and silent adjustment
- ✓ Four sizes, depth 800 mm and widths 900, 1100, 1500, 1800 mm
- ✓ Customisable with additional above-desk accessories which free desk space and further improve order and ergonomics
- ✓ Also available as an ESD model
- ✓ Desk load capacity 200 kg, for above-desk additions 80 kg
- ✓ Reliable Nordic quality, compliant with standards

**Quick, silent and wide height adjustment comes handy when you need to handle or work with items which vary from big to small.**

**The user can easily adjust the table in a range of 64 centimeters throughout the workday.** Accommodating a wide range of heights serves especially well in light-duty assembly work and packing applications, where the handled items can vary from big to small. A desk with a quick and wide adjustment range helps keep employees working comfortably and ergonomically in all situations.

The desk serves also in R&D laboratories as well as industrial offices well, as it withstands exceptional loads of 200 kg, and the desk can be customized with a wide range of accessories. The above- and below-desk accessories further enhance ergonomics, free desk space and provide order, often expected in Lean compliant industrial environments.

**The Nordic quality ensures the desk withstands high loads. You can concentrate on the work at hand.**
